Internship / EXPERIENCE

OASIS INFOBYTE, — *Web developer intern* 15 OCT 2023 - 15 NOV 2023

I had the opportunity to apply theoretical knowledge gained in academic settings to real-world projects

EY-GDS / AICTE, — *Django intern* 28 FEb 2024 - 25 APR 2024

During my internship, I successfully developed a job portal using Django. My contributions were recognized and I received commendation for the quality of my work.

PROJECTS

TAE ERP— I have been leading a team of approximately 20 students in the development of an ERP system for my college. This ongoing project utilizes Django as the primary framework.project|https://github.com/samhk90/TAE_erp

CareerFroge —The job portal, developed using Django, includes features such as messaging, OTP authentication via email etc |https://github.com/samhk90/CareerForge

Safar —Safar is a website developed using Django that utilizes Prim's algorithm to provide the shortest path for tourism sites, ensuring an efficient and enjoyable travel planning experience.|https://github.com/samhk90/Safar

BookMyEvent—This platform is essentially a clone of BookMyShow with a distinct user interface, developed using Django and PostgreSQL for backend. |https://github.com/samhk90/BookMyEvent

Movie_lib—This project is developed in React.js and showcases a movie library where users can access comprehensive information about various movies.|https://movie-lib-black.vercel.app/
